

Save university pensions and the planet!

Join over 8800 donors here to reverse the Universities Super Scheme pension cuts and to divest fossil fuels:

(Take a pic on your phone for the CrowdJustice site!)

We need you to help us get to the Court of Appeal on 13 June 2023 and sue the directors of the University Superannuation Scheme to:

- reverse the April 2022 pension cuts, and get £100s of £1000s back that they owe you;
- divest + end toxic gas, oil and coal – now;
- make USS directors use our money and shareholder voting rights for good, not bad!

We can't do it alone. 8800 people have donated to our crowdfund so far, and we're so grateful because we're showing we can support each other against vested interests. The average donation has been £42. **Join us + let's clean up our universities for good!**

Because of our legal action, and support and action from people like you so far, since we started:

- the failed CEO, Bill Galvin, resigned + USS began reporting surpluses, not nonsense deficits
- UUK said in February 2023 it could reverse the cuts and enhance benefits. But it's not done yet!
- UUK says it can "examine" divesting fossil fuels + "governance reform". We've got to hold them to it!

Follow on [Twitter @PensionsPlanet](#) + learn more about us and the action at savepensionsandplanet.org

We are absolutely determined to save university pensions and save the planet. Let's **get your pension back**, and **protect a living planet** for everyone. **Donate, spread the word, and together we will win!**
